

The Open Network Congress Meta-Space Concept (TON CON METASPACE)

This is a space that connects people from all over the world who speak English and want to discover the possibilities of the TON blockchain, projects, and NFT collections.

TON CON METASPACE blurs the boundaries between projects and their audience; founders and investors; people from different cultures and countries.

TON CON METASPACE was created for sharing, saving and using all TON CON materials within a wider audience than the one that will attend TON CON in Moscow.

Speeches, promos, interviews and other TON CON events will be posted on METASPACE in English. All information will be available for free to all METASPACE visitors.

We invite projects and infrastructure companies, crypto enthusiasts and experts, investors and NFT collectors to cooperate.

We will form a single space together!
